Training Tip of the Season

Watch your dogs in high
temperatures! To avoid heatstroke
make sure they have access to
fresh water, shade and a cool spot.

DO NOT ever leave them in your
car!!! If the outside temperature is
90 degrees the temperature inside
a car left in the sun in 10 minutes
will climb to 113°!

Signs of heat stroke are intense,
rapid panting, wide eyes,
salivating, staggering and
weakness, gums are pale and dry.

If you see any of these signs
immediately call your veterinarian!
